

Actlabs, a premier analytical testing laboratory, takes great pride in offering its testing services to Indigenous Cannabis Stores (ICS). With a steadfast commitment to precision and accuracy, Actlabs employs validated methods to deliver a comprehensive range of testing for cannabis products.

Working in tandem with the ICS underscores our dedication to providing analytical support for their visionary products. Whether it's testing for potency, purity or safety, Actlabs ensures that every analysis employs validated methods to deliver a comprehensive range of testing for cannabis products.

By harnessing cutting-edge technology and industry expertise, Actlabs empowers ICS to navigate the evolving landscape of cannabis with confidence. Our tailored solutions and unwavering reliability make us the trusted choice for analytical testing in the cannabis Industry.
